Noida, India, 201301 || 8824247766 || ajaybkn1108@gmail.com

SUMMARY

Full Stack Developer with over 2+ years of experience in building responsive, scalable web applications using **React.js, Next.js, TypeScript, JavaScript, and Redux**. Strong in writing clean, maintainable code and integrating **REST APIs** to create seamless user experiences. Comfortable working in **Agile teams**, regularly participating in sprint planning, daily standups, and code reviews. Experienced with collaboration tools like **Notion** for task management and **GitHub** for version control and CI/CD automation. Currently learning AWS to enhance skills in cloud deployment. Eager to contribute to impactful projects in a growth-oriented and collaborative environment.

SKILLS

- **Frontend Technologies:** Next.js, React, Typescript, Tailwind CSS, HTML, CSS, Redux, Vue.js, Sass, Bootstrap, JavaScript
- **Backend Technologies:** Node.js, Express.js
- **Databases:** MongoDB
- **Cloud & DevOps:** AWS (ECS Fargate, EC2, ECR, IAM, VPC, ACM), GitHub Actions
- **Version Control:** Git, Github
- **Additional Skills:** Problem Solving, REST APIs, Responsiveness, Agile Development, Version Control, Clean Code

WORK EXPERIENCE

Front-End Developer, Letese Legal Tech(<https://letese.co/>)

Sept 2024 - Present

- Built and integrated role-based access modules for different user types, including Admin, RM/VRM (Relationship Managers/Virtual RMs), and End Users, ensuring secure access control and a tailored user experience.
- Designed and developed the complete frontend of web applications from scratch using **Next.js, TypeScript, and Tailwind CSS**, ensuring high performance, responsiveness, and scalability.
- Gained hands-on experience with **AWS cloud services, including ECS Fargate (deploying containerized applications), EC2 (managing instances), ECR (container image storage), and IAM (managing access and permissions)**.
- Integrated **REST APIs** throughout the application to enable real-time data flow and seamless communication with backend services.
- Automated CI/CD pipelines using **GitHub Actions** to streamline build, test, and deployment processes, improving development efficiency and reducing manual errors. Continuously improved application performance, code quality, and development workflows.
- Developed a real-time dynamic template creation system, allowing users to input data into legal templates and instantly generate customized documents.
- Collaborated closely with designers and product managers to implement responsive UIs based on design mockups, ensuring cross-browser compatibility.
- Strong communicator with experience in explaining technical details to non-technical stakeholders.

Full Stack Developer, Novative Solutions Pvt Ltd

Feb 2023 - Sept 2024

- **OAS36ty – CA & Legal Management Software (SaaS)(<https://oas36ty.com/>):**

Developed a feature-rich SaaS platform using **Vue.js**, covering lead generation, task/client management, accounting, bulk emails, invoicing, proposals, and a dynamic dashboard. Integrated email services and streamlined workflows, improving productivity by 40%.

- **Corporate Insolvency Claim Portal:(<https://insolv-assist.oas36ty.com/>)**

Improved Vue.js component communication and integrated APIs for enhanced features and performance. Enabled seamless redirection from the OAS36TY app, boosting navigation and app efficiency by 25%.

- **HR Portal:**

Built with **React.js**, featuring employee management, attendance, performance tracking, appraisals, and bonuses. Automated workflows improved HR efficiency by 40%.
